EXPERIENCE

2007-2020	Digit Expres MM DOOEL <ul style="list-style-type: none">I started as a professional photographer, photo and video editor.I was promoted and had the task of creating my team whose task was to introduce innovations in the company. From the research, I came up with the idea to start a new business for equipping kindergartens and schools with dedicated furniture. So I started designing furniture for kindergartens. In a short time, we managed to achieve great success in that field. The company grew over the years. The variety of work I did in this company allowed me to indirectly gain UX skills and solve complex problems.
